

We Can Do Maths At Home!

Doing the washing

- Sorting by colour
- Sorting by size
- Counting the total number
- Counting in 2s
- Matching/pairing up socks

By doing some of these simple activities at home each day, you can help improve your child's maths skills and also their attitude towards maths. We use maths every day without even realising, maths doesn't have to be boring!

Games

- Card games
- Snap
- Dominoes
- Junior Monopoly
- Dominoes
- Snakes and Ladders
- Any dice games

Going shopping

- Count out the right number of things (e.g. apples)
- Recognise numerals in prices and weights
- Count out coins
- Compare weights of items

Going on journeys

- Look at door numbers
- Look at colours of cars
- Count things (cars, people, trees etc.)

To do at home

- Counting: stairs, DVDs etc.
- TV: Put it on a channel number (numeral recognition)
- How many knives etc. for dinner time?
- What day is it today? Or tomorrow?
