Charity Appeal Competition: Raise 4 Rohingya

Assalamu alaykum (peace be with you)

Dear Parent/Carer

Following on from the success of our recent Science week, the children are more aware of the need for Scientists for a range of purposes, including Doctors and Physicians.

In recognition of this need, we will be collecting donations on behalf of the charity Physicians Across Continents (PAC) for their 'Raise 4 Rohingya appeal'. PAC is on the ground in Cox-Bazar, Bangladesh, bringing medical relief to the Rohingya refugees. Among the refugees are large numbers of women, children and the elderly. They have medical camps set up in providing necessary specialised health services, examinations, diagnosis and treatment. PAC are currently treating refugees for many illnesses including malnutrition, dehydration and infections.

This relief campaign has been an ongoing effort and for this to continue, more support will be needed from donors that are passionate about the plight of the Rohingya and their well-being. There are scheduled medical trips every two weeks for specialised doctors. There are currently ten doctors from six different countries that are giving Physicians Across Continents their time and expertise.

Please send in your donations in the charity box provided, labelling it clearly with your child/ren's name/s, class/es and the amount raised. All donations must be sent in no later than **midday, Friday 20th April 2018.**

Please refer to the flyer provided to find out about all the fantastic prizes that can be won! There will be 3 prizes for the pupils who raise the most as well as another special prize for the class who raises the most!

Use your fundraising kit to raise as much as possible.

GET FUNDRAISING THIS HOLIDAY!

Wassalam (with peace)
