## Preparing for Year 2 SATs

This term we will be preparing for Year 2 SATs which will be taking place in May. Maths SATs in particular can seem a daunting task for Year 2 children, but there are many practical, fun ways to help them consolidate their classroom learning and make mathematical concepts (from number bonds to 3D shapes) real and easy to understand. Here are a few links to some helpful websites :

Our school subscribes to Mathletics and Bug Club and every child should have an account. These web sites are designed with fun educational games and lessons which will help your child learn and make progress outside their class. If your child doesn't have their account details please speak to the class teacher or Year 2 Group Leader. Additionally, we understand that some children may not be able to access these websites at home or in the public library. If that is the case, please request for an opportunity for your child to access these sites during the school day.

## Uniform, PE and Water

Please ensure that children wear the correct uniform at all times. It is essential that all pieces of
