

How to make your own 3D mosque

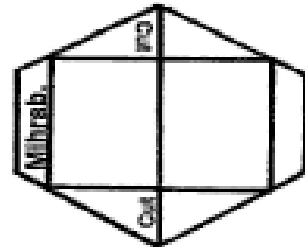

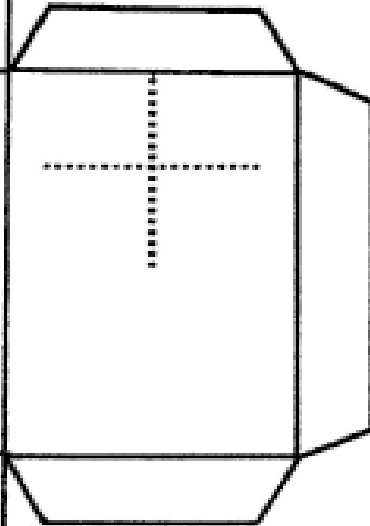

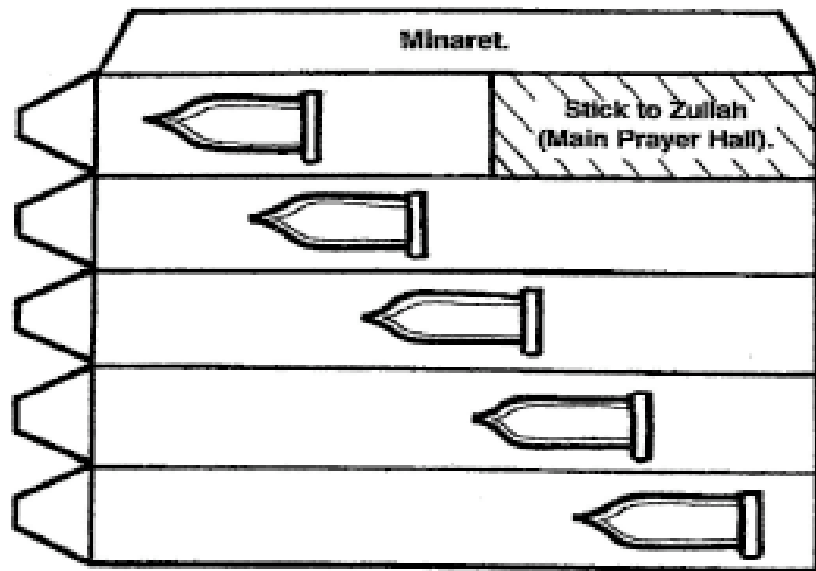

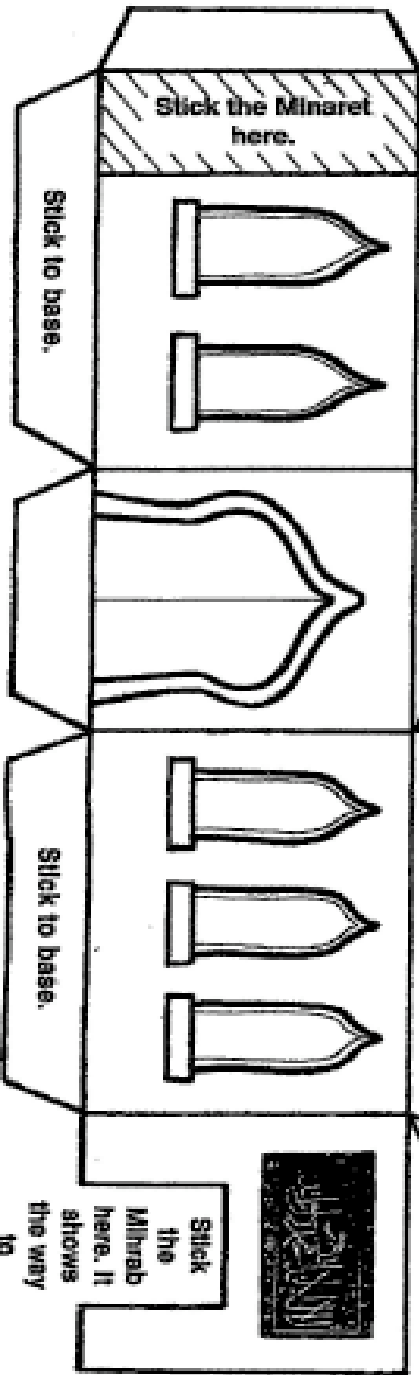

Please note, you can also make a mosque out of common household materials such as bottles, cereal boxes etc. Please let your class teacher know if you would like to send any photos, please send them to info@olivehackney.staracademies.org

You will need:

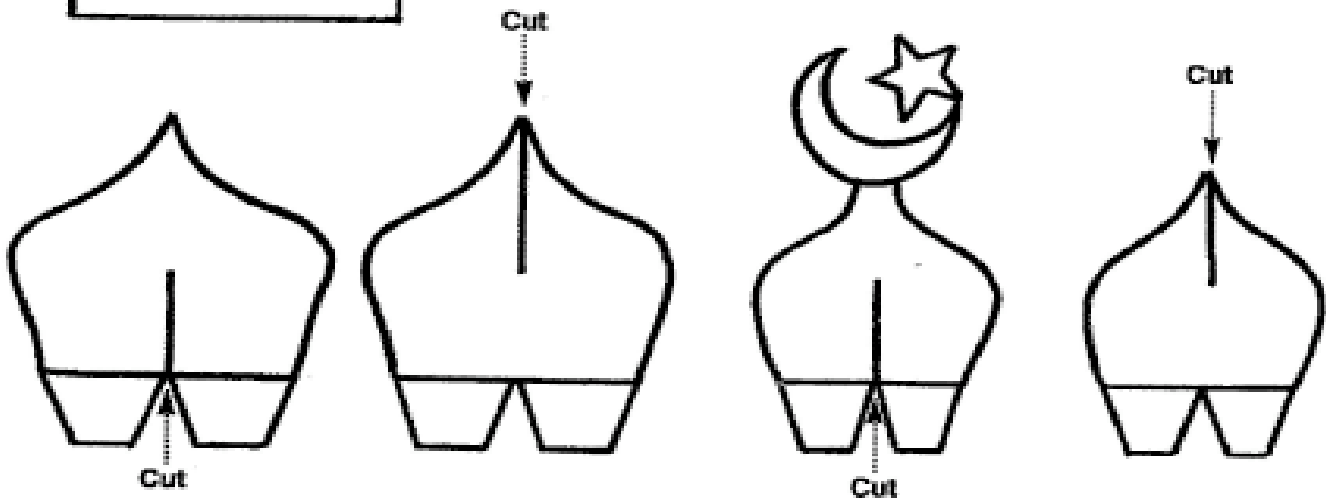

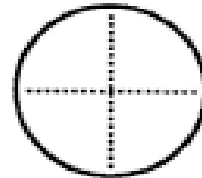

- Scissors
- Glue
- Card board box
- Colouring pen/pencils

Instructions:

1. Cut out the shapes.
2. Fold down the lines to make cubes.
3. Colour the cubes and the domes.
4. Stick the shaded area as stated on the sheet.
5. Stick all the cubes onto cardboard box

Stick circle on the top of the Minaret and add the smaller dome.

Colour the domes on both sides and decorate windows and walls.
