## **Drawing Texture**

1. Practise drawing a texture with a pencil by copying these textured squares.

2. Find objects or materials within the room with an interesting texture. Feel them and describe them and then have a go at drawing a textured square.

| Object | Description of texture | Texture in drawing |
|--------|------------------------|--------------------|
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
|        |                        |                    |
