

Year 6 Project

The Giza Pyramids

Research about The Giza Pyramids, then
build your own 3D model of The
Pyramids

Things you may use:

Cardboard

Lego

Sugar cubes

Mini bricks

Chocolate

Upon completion, answer the following:

- Why did you choose to use that material/items for the structure?
- What was the most challenging part of the model?
- What obstacles did you come across when erecting the pyramid?
- What would you do differently if you attempted this project again?

Closing date: 10th July
