

The Alien Times

UFO Sighting

Recent bright lights and high-pitched whistles have baffled dog walkers in the woodlands of Suffolk. The disturbance has occurred in the same area as the UK's largest ever UFO sighting, in 1980.

One astonished walker said, "I walk in these woods regularly and, although I'm aware of the unusual history of the place, I've never experienced anything like this before."

It seems that someone, or something, might be trying to contact

us again, but nobody can fathom why this is happening nearly forty years since the first incident. The 'flying saucer' was in almost the exact same position as the UFO that was spotted in December, 1980.

Some residents are nervous but many others are excited about the prospect of contact with extra-terrestrials!
